PROFILE

Motivated and hands-on IT Technician with practical experience in CCTV systems, access control, network setup, and computer hardware installation and maintenance. Skilled in diagnosing and resolving technical issues both on-site and remotely, with a strong focus on system reliability and security. Known for being reliable, adaptable, and committed to delivering high-quality service in dynamic environments. Excited to gain more experience in advanced IT infrastructure and security technologies to further enhance my professional growth.

EDUCATION

Kolej Uniti, Port Dickson, Negeri Sembilan | Diploma in Halal Industry Management 2019 – 2021

CGPA: 3.41

SMK Dato' Abu Bakar Baginda | Sijil Pelajaran Malaysia (SPM) 2014 – 2018

EXPERIENCE

Fix & Go It Specialist, Bandar Baru Bangi | Technician System 2022 – Present

- Installed and configured analog and IP-based CCTV systems to secure optimal camera placement, wiring, and system functionality for residential and commercial properties.
- Installed and programmed electronic access control systems, including keypads, card readers, and biometric systems to enhance building security.
- Set up LAN/WAN networks including cabling, routers, switches, and wireless access points to ensure strong and stable network performance.
- Assembled and installed computer hardware components such as motherboards, hard drives, and peripherals according to technical specifications.
- Diagnosed hardware/software issues, conducted system testing, and provided technical support on-site and remotely to ensure system reliability.
- Performed routine maintenance, security updates, and system upgrades to improve performance and prolong equipment lifespan.

Arenabookers2u, Bandar Semenyih | Installer System Feb 2020 – Mar 2020

- Installed surveillance systems including mounting cameras, configuring angles, and to secure system setup and operation.
- Performed structured cabling, neatly routed wires, and made secure electrical and data connections to ensure system reliability and safety.

Adilily Enterprise, Bandar Teknologi Kajang | Storekeeper 2018 - 2019

- Monitored and maintained optimal inventory levels by managing regular stock checks to ensure accuracy and availability of products.

- Organized and labeled stock systematically for easy identification and efficient retrieval to improve stock handling time and reducing errors.
- Ensured a clean, safe, and organized store environment by doing routine cleaning such as sweeping and throwing away the trash.

SKILLS

Technical Skills

- CCTV System Installation & Configuration - Advance
- Electronic Access Control Systems (Keypads, Card Readers, Biometric Systems) - Intermediate
- LAN/WAN Networking (Cabling, Routers, Switches, Wireless Access Points) - Intermediate
- Computer Hardware Assembly & Installation - Advance
- Structured Cabling & Wiring - Intermediate
- System Testing & Troubleshooting (Hardware/Software) - Intermediate
- Technical Support (On-site & Remote) - Advance
- System Maintenance & Upgrades - Advance

Tools & Equipment

- CCTV Software & Hardware Tools - Advance
- Access Control Management Software & Hardware Tools - Advance
- Networking Tools (cable testers, crimping tools) - Advance
- Inventory Software - Intermediate

Language

- Malay Language - Advance
- English Language - Intermediate

CERTIFICATION

- Certificate for Pole Proficiency Training
